Proposed Solution Template

Date	07-10-2022
Team ID	PTN2022TMID07173
Project Name	NEWS TRACKER APPLICATION
Maximum Marks	2 Marks

S.NO	PARAMETER	DESCRIPTION
1	Problem Statement (Problem to be solved)	As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule. Well, that's not possible but reducing the time by changing the conventional method of reading news can help. Just tell us what market news you're interested in and get a quick peek for the day. Only read what you feel is relevant and save your time. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.... as on official websites.
2	Idea / Solution Description	We provide news in a form Of reading and video or audio types. Distribute the news everywhere, and based on the location we access the particular news.
3	Novelty / Uniqueness	It is an cloud based Web Application. It provides news based on the user interested areas and user requested location. User can pin the news and read later.

4	Social Impact / Customer Satisfaction	<p>The first news paper in India was published in 1780's. But, in day to day life information and technologies are increased. Like that, Customers also expecting more new ideas and algorithms.</p> <p>This application is used to reduce the time of the people those who are reading the newspapers and also other web applications.</p>
5	Business Model (Revenue Model)	<p>This is an independent Platform to all the users like Pro Publica is an independent non-profit newsroom that produces investigative journalism with moral force. With a team of more than 100 dedicated journalists, pro publica covers a range of topics including government and politics, business, criminal justice, the environment and technology.</p>
6	Scalability of the Solution	<p>This application also seems like other application. But, it reduce the time of People by news are converted from reading to hearing format. We can papercut some news and save for later usage. It highlights the user interested news in top of the web application.</p>
